## PROFESSIONAL SUMMARY

---

Passionate, motivated, and forward looking software engineer with 1 year of experience in using and deploying innovative software solutions. Top of my class in Vanderbilt University Coding Bootcamp and 5 consecutive semesters on the dean's list at Columbia State University achieving my Engineering degree. I am recognized as a leader, problem solver, and possessing creative skills that allow my peers and I to achieve our goals. I am seeking to use proven skills in JavaScript (by extension Node and React) Python, mySQL, Relational Database Management Systems, and Object Relational Mapping. I am seeking positions that are or are similar to: Web Developer, JavaScript Developer, Python Developer, IT Specialist, Database Developer, Data Engineer, React Developer, Security Analyst, UI/UX Developer, Software Engineer, Front End Engineer, Back End Engineer, Full Stack Developer.
